

Championing Internationally Educated Nurses in Canada!

AccelerateIEN is an innovative four-step training program that helps seamlessly transition Internationally Educated Nurses (IENs) from theoretical knowledge to practical patient care in Canada. By combining custom eLearning, simulation-based training, workplace support, and mentorship, the program builds confidence, strengthens critical thinking and communication skills, and ensures IENs are well-prepared to navigate local work environments before and during onboarding.

What's in the Program?

1. Canadian Nursing Essentials

A one-week eLearning foundation covering healthcare system basics, nursing roles, and standards.

3. Simulation Boot Camp

Two weeks of hands-on, AI-powered Virtual Reality and simulated training to build critical skills safely.

2. Prior Learning Assessment

A personalized evaluation conducted by an expert Nurse Educator to identify individual strengths and learning needs.

4. Ongoing Expert Support

Up to eight weeks of support from our expert Clinical Practice Mentors—available for coaching, questions, and real-time skill development.

Why It Matters

Faster IEN Readiness

Simulation, targeted training, and real-world exposure accelerate adaptation.

Advanced Recruitment

Streamlined mentoring and IEN support encourage more nurses to become preceptors.

Reduced Preceptor Burden

Preceptors get structured support and tools to make mentorship easier.

Improved Retention & Results

Cultural and workplace integration helps IENs stay and deliver better patient outcomes.

How Nurses Can Support IENs

Become a Preceptor

Guide and inspire others by sharing your expertise.

Foster Communication

Cultivate an inclusive and engaging learning space.

Enhance Your Skills

Strengthen your mentorship with our custom courses.
