

Strengthens nurse readiness and supports a smooth transition into clinical practice—driving operational consistency and sustained staff retention.

A Workforce-Ready LPN Pathway for Internationally Educated Nurses.

AccelerateLPN™ supports Internationally Educated Nurses (IENs) to transition into Canadian Licensed Practical Nurse (LPN) practice with confidence. By combining targeted eLearning, simulation-based training, and hands-on learning, the program builds clinical readiness and supports successful integration into healthcare teams.

Program Overview

1. Canadian Nursing Essentials

One week of focused eLearning and virtual classes covering Canadian nursing practice, the healthcare system, and cultural expectations.

2. Skill Immersion Process

A two-week intensive that includes virtual scenarios, VR clinical simulations, and a hands-on Skills Day to build practice-ready skills.

3. Ongoing Expert Support

Up to eight weeks of coaching and guidance from Clinical Practice Mentors for IENs and their preceptors.

Key Resources & Features

- 100+ eLearning courses
- VR simulation library
- Nurse Educators and Concierge support

Why It Matters

Faster LPN Readiness

Simulation, targeted training, and real-world exposure accelerate adaptation.

Advanced Recruitment

Streamlined mentoring and LPN support encourage more nurses to become preceptors.

Reduced Preceptor Burden

Preceptors get structured support and tools to make mentorship easier.

Improved Retention & Results

Cultural and workplace integration helps LPNs stay and deliver better patient outcomes.

How Nurses Can Support IENs

Become a Preceptor

Guide and inspire others by sharing your expertise.

Foster Communication

Cultivate an inclusive and engaging learning space.

Enhance Your Skills

Strengthen your mentorship with our custom courses.
